REMARKABLE RESCUE.

Mrs. Micho virtain, Plainfield, makes the ment that she caught cold, when settled on her lungs; she was treated for a mouth by her family physician, but grew worse. He told her that she was a helpless victim of consumption, and that no medicine could care her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from the first dose. She continued its use and af ter taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was.—Free trial hottles of this Great Discovery at A. F. TWO CHOICE

2,000 Acres Mineral and Timber Lands

FOR SALE.

This is an opportunity of a life time to secure such valuable real es-tate and model homes in the finest section of our country. These are the richest forms in the richest val-ley, in the richest county in the State, and are superior to the best greating and are superior to the best grazing lands in the famous blue grass re-gion of Kentucky.

There are many advantages and possibilities on these farms which

cannot be described on paper.

The richness of the soil, the healthfulness of the climate, the beauty of the mountain scenery all must be seen and enjoyed to be appreciated.

On one end of one of these farms is a splendid site for a summer resort, an elevation overlooking the whole country, as many as three States and a large number of coun ties being visible from the top of this elevation. People of observa-

FARM NO. ONE.

Known as the "Old Thomas Hening-er Homestead," contains 500 acres, 350 of which is in the very heaviest Blue Grass sod. The balance is in timber reserved for the use of the farm, the soil of which is well adapted to grass also. On this farm is

FARM NO. TWO.

On which I now reside contains up wards of 700 acres, 200 acres in moul wards of 700 acros, 200 acros in meal-low, upwards of 300 in Blue Grass, and 200 in timbered land well adapt-ed to grass. On this farm is a new frame residence of eight rooms and two halls. Outbuildings such as barn and hay sheds supplied with LABOR SAVING APPLI-ANCES superior to and different from anything on the continent. On this farm are between thirty and for-ty never failing springs of pure lime-stone water, well distributed in the different fields. On both these farms is a sufficient amount of fruit.

The income from these farms prop

erly worked, should be very large. For instance, the hay crop from the 200 acres of meadow will amount annually to \$6,000 at \$10 per ton, while this is only one fourth of the arable land of the two forms. land of the two farms.

TRACT NO. THREE.
